

## Securefast – SBL330.S / SBL330.SL ‘Easy Code Plus’ Digital Locks

SBL330.SL

SBL330.S

***The ‘Easy Code Plus’ Digital Locks range has an enhanced security mechanism that prevents the code from being easily detected by professional villains.***

Easy Code Mechanical Digital Lock is designed to offer a simple and convenient means of providing security for low to medium traffic areas such as storerooms, workshops, plant rooms and offices and is supplied complete with a 60mm backset deadlocking tubular latch.

The Easy Code units have also been successfully fire rated for use on fire doors to EN1634-1 and also externally approved have completed a 240 salt spray test to EN1670.

The SBL330.S has a large turn knob on the inside unit for easy egress and houses a hold back snib for the tubular latch.

The SBL330.SL has a lever handle both sides with no hold back feature.

### Features & Benefits

- Includes a mechanism unit which is superior to the conventional systems as the code is easy changed
- Clutch mechanism on lever handle to prevent damage to internal parts
- Easy Code change by rotating dials on the reversed side of the outside unit
- Over 2000+ different non-sequential code combinations
- Single User Code of 1-11 digits
- Suitable for internal and external use
- Suitable for timber doors from 35-65mm in thickness
- Compact and robust zinc die cast body
- Supplied with 2 neoprene seals for behind the units
