

### ASH24 Two-wire Audio Entry System

***The ASH24 Genway Two-wire Audio Entry System includes a robust die-cast door station for the outside with a power transformer and an internal handset with mute and lock release button.***

The slim line handset can be easily wall mounted and has a status indicator. The kit includes 15 metres of two-wire cable for connecting the handset to the door station. The robust door station is ideal for fitting in a porch area or under a canopy to protect the unit from direct rainwater.

The handset and door station can be fitted up to 100m apart, however to improve the reception quality it is recommended to include a 8-core alarm cable

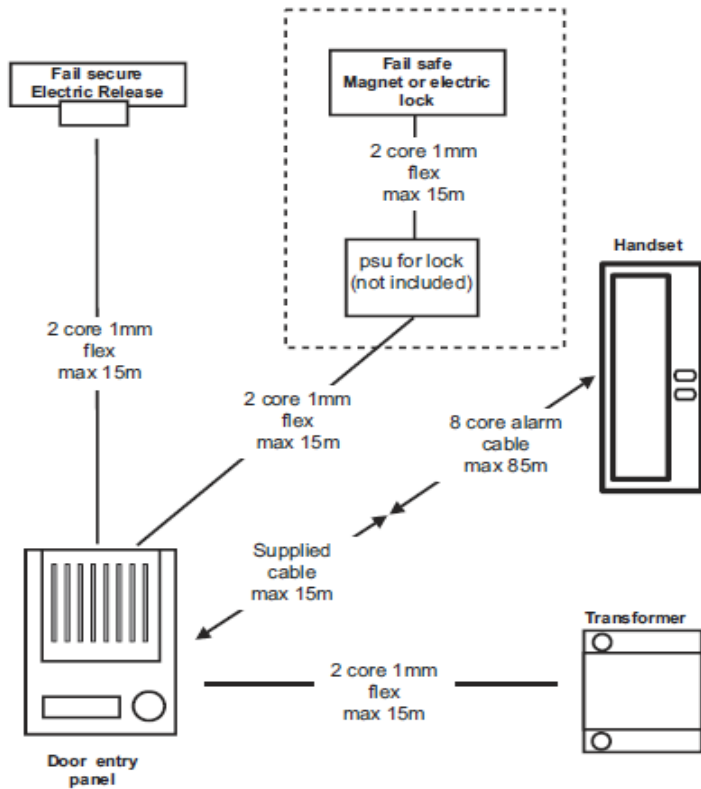

#### Features & Benefits

- Surface mounted internal handset with status indicator, lock release and mute button
- Double ring tone
- Single call button and address window on door station
- Surface mounted robust and compact door station
- Waterproof silicon seal provided on the back of the door station for protection when fitted on a smooth flat wall
- Unlocking time adjustment of 1 – 10 seconds
- Power to Unlock or Fail Secure locking devices such as the ADCN203+S Electric Release can be connected direct to the door station
- Optional exit button can be supplied to provide a release of the locking device on the door
- An additional PSU is required for the Power to Lock or Fail Safe locking devices, such as Electro-Magnets
- The Kit includes – Robust door station, Internal handset with status indicator, lock release and mute button, 15m cable, Connections and fixings, Power transformer and user manual.

### ASH24 Two-wire Audio Entry System
