

F400-210R Fire Alarm Isolator Switch

The Fire Alarm Mains Isolator Switch is used to provide secure isolation of the mains supply to the fire alarm system as per BS5839-1:2002 + A2:2008

The F400-210R is also suitable for security, access control and indicating equipment. The double pole switch contact is operated by key to ensure only authorised individuals can isolate the mains supply.

Features & Benefits

- Both the Live and Neutral supply is switched and a fuse is also provided
- The supply can only be isolated by an authorized person, by means of a key-lock switch the key is removable in both ON/OFF positions.
- The fuse cannot be removed without taking the cover off
- A neon indicator is provided to indicate mains present at the switched output.
- Working voltage – 250v AC
- Switch Contact Rating – Double pole
- Switch surge rating 80A
- Housing size – W86 x L86 x 56.5 mm
