

Stainless Steel Exit Button & Key Switch Range

AEB2

AEB30

AEBKS-02

The Stainless Steel Exit Button range uses a push button which are ideal units for areas where members of the public have access and users with little incentive to exercise care and allows simple egress out of the area.

The key switch is ideal for an authorised person to control a device, such as sliding doors or an access control system

The range is available with a number of options either "PRESS TO EXIT" or "DOOR RELEASE"

Colson Maintained key switch is a complete single gang back box operated by key switch – On, Off and Hold Open Mode.
