

Euro Profile Security Cylinder & Escutcheon (3 Star Package to TS007)

The three star package is ideal for timber and steel doors when used in conjunction with the 72mm centres mortice lock range.

Securefast 1 star euro profile security cylinders and 2 star escutcheons, provide a 3 star package which conforms to the DHF's TS 007 standard.

The 1 star rating on the security cylinder offers protection from drilling, picking, bumping and plug extraction.

The 2 star rated escutcheon offers anti – snap protection, and prevents easy access to the cylinder. The escutcheon is hardened to give extra drilling protection and has a window for the key which will spin if drilling is attempted.

The cylinders are available in various sizes and suitable for all euro profile lock cases.
