

AML2C Video Doorbell with Chime

AML2C

The Securefast video doorbell is a high-grade video doorbell which comes complete with a plugable chime.

The intelligent Wi-Fi configuration allows long distance signal transmission, meaning that the video footage can be viewed anywhere in the world, from any handheld device such as a phone or tablet.

Visitors can also make video calls with the owner of the premises, which can be recorded for a short period of time. Wi-Fi connection to the video doorbell enables it to connect multiple users and allow live online viewing at the same time.

Features & Benefits

- The unit has one year stand by battery life, therefore there is no need for hard-wiring
- Advanced high speed video processor chip
- Long distance signal transmission, support mobile phone real time monitoring
- High definition video and two way voice call makes communication clearer
- Wi-Fi connection for convenient monitoring
- Low power consumption and energy saving
- Built in IR LED, support night vision for safety monitoring at night
- Micro SD Card storage and cloud storage
- Micro USB cable is required for charging
- Security screws prevent easy removal
- App can be put on multiple mobile devices
