

AC10S-10 Wi-Fi Camera with Night Vision

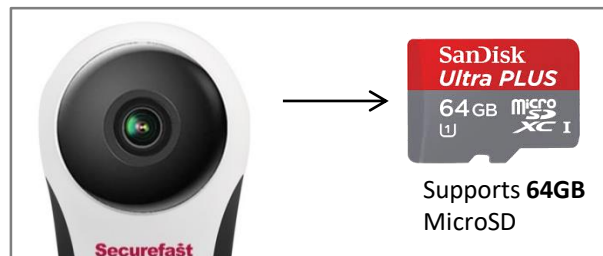

The small and compact AC10S-10 Wi-Fi camera with additional night vision which has a 1 Megapixel lens and a 720P wide angle view.

The camera uses Wi-Fi technology allowing video footage to be viewed anywhere in the world from a handheld device such as a phone or tablet.

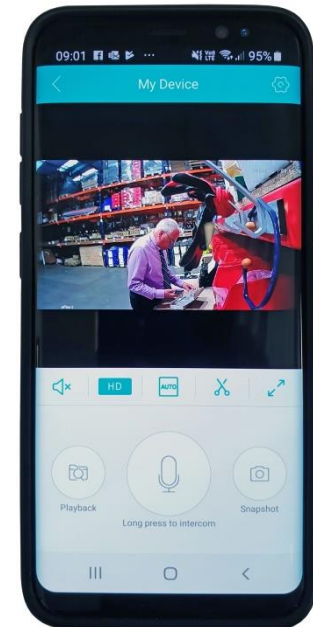

The camera has a motion detector, ideal for home security, to check on pets, or even check on children in another room. To assist with this the unit uses high quality night vision technology creating an image at night just as clear as in the day.

The unit is supplied with a mini USB cable and incorporates a wall monitoring bracket, plus magnetic base to install into any application.
