

ACT5 Keypad

The ACT5 digital keypad is an excellent addition to the range of standalone access control products with its 'no frills' specification, the only requirements are access and egress.

The ACT5 comes in a stylish polycarbonate housing with stainless steel keys. It may be surface or flush mounted on to a standard single gang electrical back box.

The ACT5 offers simple access control with a IP rating of IP67, featuring exit button input and also incorrect code lockout.
