

AWL63 Five Wire Audio Entry System

The AWL63 Genway Five-wire Audio Entry System is a simple single door entry telephone kit with a solid constructed door station, power transformer and slim internal handset.

The robust door station is ideal for fitting flush in a porch area or under a canopy to protect the unit from direct rainwater or alternatively the AWL63C cover can be fitted to give additional protection in exposed conditions.

Features & Benefits

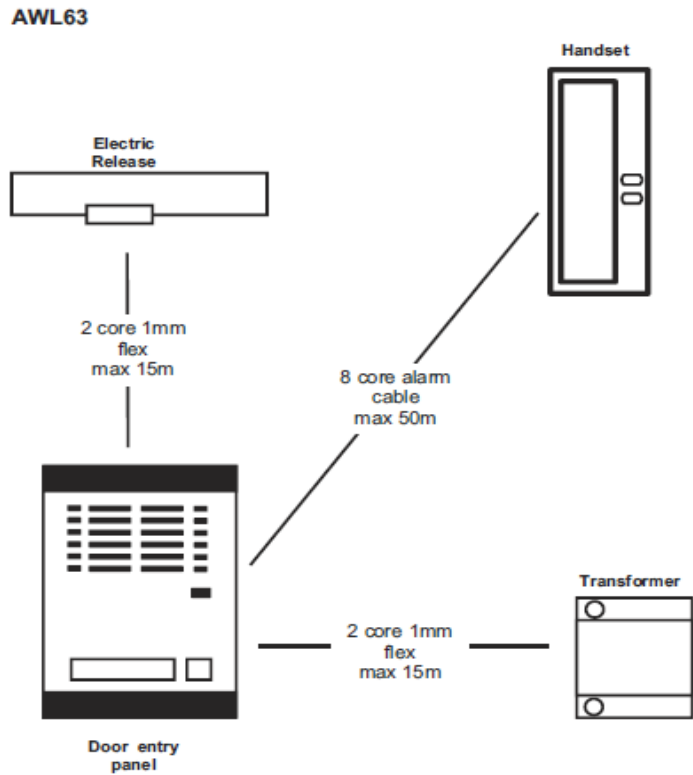

- Five-wire connection
- Surface mounted internal handset with lock release
- Double ring tone
- Lifting the handset will answer the caller
- Single call button and address window on door station.
- Flush mounted robust and compact door station with indicator light.
- Can be surface mounted using the AWL63C Surface Cover, which also offers additional protection from rain water.
- The Electric Release ADCN203+S can be used with no need for an additional PSU.

Optional AWL63C surface cover (supplied separately)

AWL63 Five Wire Audio Entry System
