

AEM0371 Acoustic Hold-Open Magnet

The AEM0371 is a new generation Wireless Acoustic Hold Open Magnet which has the ability to learn the sound of the buildings fire alarm, meaning false activations are almost eradicated.

Sounds such as vacuum cleaners and other background noises will not purposely activate the hold open magnet.

The Acoustic Hold Open Magnet has been designed to be fitted anywhere on the door, however if fitted at the top then this will prevent the fire door from warping and prevent damage from being kicked.

Features & Benefits

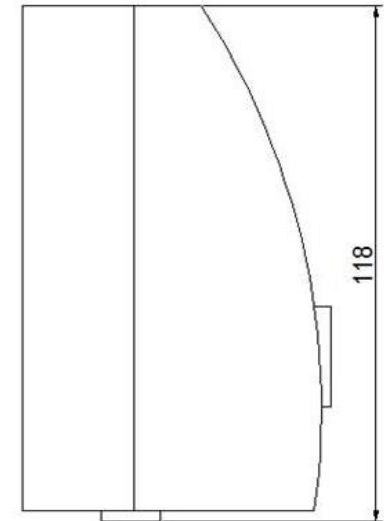

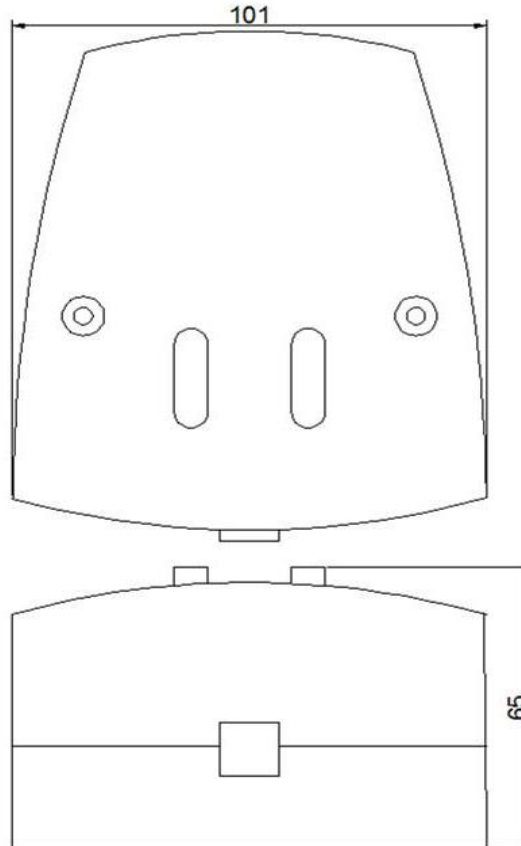

- Digital, acoustically-triggered, magnetic door holder
- Learning function to optimise settings to suit its installed position
- Battery life warning – Full battery life indicator and low battery warning
- Time – can be reprogrammed for release and re-hold times
- Attractive design and unobtrusive
- Approved to EN1155 and CE marked 200N Holding Force
- Battery Life 12 months

AEM0371 Acoustic Hold-Open Magnet

Product Code	AEM0371
Door Holder Housing Size	H118 x W101 x D85
Keeper Size	H70 x W70 x D41
Weight of Door Holder	0.60
Weight of Keeper	0.15
Holding Force	200N
Batteries	2 x "C" cell batteries
Sounder	65dB(A)
Finish	White
Material	ABS

CEN Standard	Classification Code
BS EN1155:1997 + A1:2002	3 5 5 1 1 0
